**TARIFF FORMAT**

- A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between Page 14 and 15 would be 14.1.
- B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4<sup>th</sup> revised Page 14 cancels the 3<sup>rd</sup> revised Page 14.
- C. Paragraph Numbering Sequence - There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
  - 2.1
  - 2.1.1
  - 2.1.1.A
- D. Check Sheets - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. An asterisk designates all revisions made in a given filing (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

Pursuant to the Public Safety Emergency Telephone Act (Act 78 of 1990), as amended), the Telephone Company collects a fee from its customers on behalf of the counties in its operating area to support the 9-1-1 system. Counties of the first through second class may impose a monthly contribution rate in an amount not to exceed \$1 per line on each local exchange access line. Counties of the sixth through the eighth class may impose a monthly contribution rate not to exceed \$1.50 per line on each local exchange access line. The contribution rate may be used by counties for the expenses of implementing, expanding or upgrading a 911 system.

The Pennsylvania Telecommunications Relay Service (PA TRS) is a relay telecommunication service for the deaf, hard of hearing, hearing and/or speech disabled population of the Commonwealth. The PA TRS is mandated by the Americans with Disabilities Act of 1990 to provide functionally equivalent telephone services that are available to other U.S. citizens, at no additional cost. The PA TRS includes both traditional relay (devices such as Teletypewriters (TTY) and Telecommunication Devices for the Deaf (TDD)) and captioned-telephone voice-carry-over relay services (captioned telephone). These relay services permit telephone communications between individuals with hearing and/or speech disabilities, who must use a TTY, TDD or captioned telephone, with individuals having normal hearing and speech. Additionally, 711 abbreviated dialing is available to access the PA TRS. The Company's switching equipment is arranged to translate the "711" calls to the assigned toll-free number, (888) 895-1197, in order to route calls to the Telecommunications Relay Service Provider, in accordance with Commission's Order entered on February 4, 2000 at Docket No. M-00900239.

**2.11.2 Surcharge**

In addition to the charges provided in this tariff, a surcharge will apply to all business access lines served by this Company. (Access lines are those lines extending from the telephone company's central office to the end-user's premises.) This surcharge applies regardless of whether or not the access line uses the PA TRS.

The surcharge serves as the funding vehicle for the operation of the PA TRS, Telecommunications Device Distribution Program and the Print Media Access Service Program and shall be calculated by the Pennsylvania Public Utility Commission (the Commission). The Commission shall compute the PA TRS surcharge each year and notify local exchange carriers of the surcharge amount to be applied for the twelve-month period commencing with July 1 of each year.

The Commission may revise the surcharge more frequently than annually at its discretion.

Tariff revisions will be filed whenever the Commission calculates a new surcharge amount and notifies the Company.

**SECTION 5 - LOCAL EXCHANGE SERVICE****5.1 General**

Local exchange service is offered to business Customers on a presubscription basis from equal access originating end offices only. Service is provided on a term basis only. Unless other specified, the minimum term is one (1) year. Rates for service may vary by call type and/or term commitment. Usage rates, per call charges and monthly fees may apply. In addition, applicable Service Order and other non-recurring charges may apply. Call timing is defined in the description for each service. Service is available 24 hours a day, 7 days a week. Service is available where technically feasible and where facilities permit.

**5.2 Charges Based on Duration of Use**

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- 5.2.1** Calls are measured in durational increments identified for each service. All calls that are fractions of a measurement increment are rounded-up to the next whole unit.
- 5.2.2** Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing for operator service person-to-person calls start with completion of the connection to the person called or an acceptable substitute, or to the PBX station called.
- 5.2.3** Timing terminates on all calls when the calling party hangs up or the Company network receives an off-hook signal from the terminating carrier.
- 5.2.4** All times refer to local time.

**SECTION 5 - LOCAL EXCHANGE SERVICE, (CONT'D.)****5.3 Basic Local Exchange Service****5.3.1 General**

Basic Local Exchange Service provides a Customer with a telephonic connection to, and a unique telephone number on, the Company switching network that enables the Customer to:

- A.** receive calls from other stations on the public switched telephone network;
- B.** access the Company Local Calling Services and other Services as set forth in this tariff;
- C.** access interexchange calling services of the Company and of other carriers;
- D.** access (at no additional charge) to Company operators and business office for service related assistance;
- E.** access toll-free telecommunications services such as 800 NPA; and access toll-free emergency services by dialing 0 or 911 (where available);
- F.** access relay services for the hearing and/or speech impaired.

Basic Local Exchange Services cannot be used to originate calls to caller-paid information services (e.g., 900, 976) provided by other companies. Calls to those numbers and other numbers used for caller-paid information services will be blocked by the Company switch. Each Basic Local Exchange Service corresponds to one or more telephonic communications channels that can be used to place or receive one call at a time.

Individual line Business Basic Local Exchange Service is comprised of exchange access lines defined as follows:

**Exchange Access Line** - The service central office line equipment and all the Company plant facilities up to the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for message toll service and for local calling appropriate to the tariffed use offering selected by the Customer.

**6.4 Directory Listing Service**

**6.4.1 General**

The following rates and regulations apply to standard listings in light face type in the white pages (alphabetical section) of the telephone directory and to the Directory Assistance records of the Company.

Directory listings are limited to such information as is essential to the identification of the listed party. The listing of a service, commodity, or trade name is not permitted unless it is the name, or an integral part of the name, under which the Customer does business.

A listing is limited to one line in the directory, except where in the judgment of the Company, more than one line is required to identify the Customer properly. In such cases, the additional lines required are provided at no extra charge.

Listing services are available with all classes of main telephone exchange service.

**6.4.2 Listings**

**A. Primary Listing**

One listing, termed the primary listing, is included with each exchange access line or each joint user service.

**6.4.2 Listings, (Cont'd.)**

**B. Additional Listings**

Additional listings may be the listings of individual names of those entitle to use the customer's service or, for business, Commissions, Divisions, Trade names, etc.

In connection with business service, regular additional listings are available only in the names of Authorized Users of the Customer's service.

Ordinarily, all additional listings are of the same address and telephone number as the primary listings, except as provided for joint user and alternate number listings. However, when it appears necessary as an aid to the use of the directory and provided satisfactory service can be furnished, a listing will be permitted under the address of a branch exchange, Centrex or extension of an exchange service line installed on the premises of the Customer, but at an address different from that of the attendant position of main service.

Special types of additional listings, such as Alternate, Alpha and Informational, Duplicate and Reference Listings, Foreign Listings, etc. take the same business classification as the service with which such listings are furnished.

**SECTION 6 - MISCELLANEOUS CHARGES AND SERVICES, (CONT'D.)****6.4 Directory Listing Service, (Cont'd.)****6.4.2 Listings, (Cont'd.)****C. Nonpublished Service**

The telephone numbers of nonpublished service are not listed in either the Company's alphabetical directory or Directory Assistance records available to the general public.

Non published information may be released to emergency service providers, to customers who subscribe to Company offerings which require the information to provide service and/ or bill their clients, or, to telephone customers who are billed for calls placed to or from nonpublished numbers and to entities which collect for the billed services. Nonpublished names and/or telephone numbers may also be delivered to customers on a call-by-call basis.

Incoming calls to nonpublished service will be completed by the Company only when the calling party places the call by number. The Company will adhere to this practice not withstanding any claim the calling party may present, except claims of emergencies involving life and death. In such cases, the Company will call the non-published number and request permission to make an immediate connection to the calling party.

When the Company agrees to keep a number unlisted, it does so without any obligation. Except for cases of gross negligence or willful misconduct, the Company is not liable for any damages that might arise from publishing a non-published number in the directory or disclosing it to some. If, in error, the telephone number is published in the directory, the Company's only obligation is to credit or refund any monthly charges the Customer paid for non-published service.

The Subscriber indemnifies (i.e., promises to reimburse the Company for any amount the Company must pay as a result of) and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-published service or the disclosing of said number to any person.
